

SMALL GROUP LEADER GUIDE

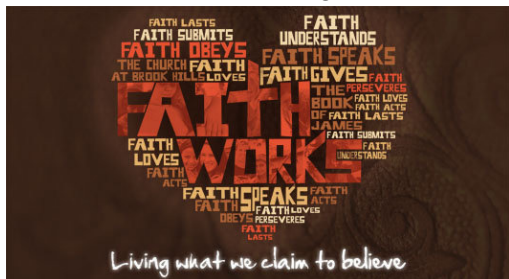

The biblical truths presented in these powerful videos are gripping, compelling, and can change us and our world. You will find these series to be possibly the most life-transforming series you have encountered, while at the same time being incredibly simple to lead. Each video message is approximately an hour in length. Just press "PLAY" and an hour later, ask one simple question, "What are your thoughts and responses?" In our experience, there will be no shortage of conversation.

FOOD: Sharing a meal with your small group allows us all to enjoy and get to know one another better. We converse and share life over a meal in a way we don't when we're all sitting in a circle. In lieu of a regular meal, your small group may also wish to participate in RICE NIGHT.

FORMAT: Allow two and a half to three hours for your meeting. A suggested format may be to allow 30 to 45 minutes for dinner, an hour for the video and an hour for discussion and prayer.

FAITH TAKES ACTION: Do not merely listen to the word, and so deceive yourselves. Do what it says. James 1:22

At the conclusion of each series, ask each member of the group to share specifically what God is leading them to put in to action. As we hear from each other, we will spur one another on toward love and good deeds. Conduct the RADICAL Experiment as a small group.

SHARE YOUR STORY: We invite you to share stories about the ways in which God is working in and through these small groups.
